- Special Recognition for Academic Achievement: Institutional Level - Finalist at PUP Hackathon: UTHack ang Puhunan (RICECUERS)
- Outstanding Service Awardee: Graduation Steering Committee - Audiovisual and Technical Committee

2019 - 2021

San Pablo Colleges

Information and Communication Technology

- Class Valedictorian
- Paulo De Gala Macasaet Excellence Medallion Awardee
- Outstanding in Work Immersion

EXPERIENCE

Software Developer, 2025 - 2026

Analog Test and Measurement Philippines, Inc.

- Developed and maintained the eHealthcareApp for iOS using Swift and Xcode, focusing on healthcare-related functionalities, performance optimization, and user experience.
- Developed the Android version of eHealthcareApp using Kotlin and Android Studio, implementing responsive user interfaces and mobile healthcare solutions.
- Designed interactive application prototypes and user workflows using Figma, ensuring seamless UI/UX across mobile platforms.
- Conducted research and developed a proof-of-concept project titled "Bringing TB Detection Closer: A Point-of-Care Approach in Muntinlupa's High-Burden Communities," contributing to innovative healthcare technology solutions and tuberculosis detection accessibility.

On-the-Job Training (OJT), 2025

Analog Test and Measurement Philippines, Inc.

- Graphic Designer
 - Designed and produced marketing materials, promotional graphics, and social media content using Canva, CapCut, Adobe Photoshop, Adobe Illustrator, and Figma.
 - Developed visually engaging digital assets aligned with company branding and marketing objectives.
- Web Developer
 - Assisted in enhancing the user interface, user experience, and overall functionality of company web platforms.
 - Contributed to the development and maintenance of the company websites: ehealthcareinc.com & ehrx.myehealthcareinc.com
 - Utilized HTML, CSS, JavaScript, and PHP to implement website improvements, optimize performance, and support feature development.

Work Immersion, 2021

Yazaki-Torres Manufacturing Inc.

- Computer Programmer Trainee
 - Developed an inventory management system for a grocery business using Batch Script, automating inventory tracking and operational processes.
 - Developed a Point-of-Sale (POS) Transit System named Fare Matrix using Turbo C (C Programming Language) to manage fare computations and transaction processing.

CERTIFICATIONS, SEMINARS, AND TRAININGS

- Front End Development (HTML) (September 2024)
- Connecting to a MongoDB Database (September 2024)
- MongoDB and the Document Model (September 2024)
- Getting Started with MongoDB Atlas (September 2024)
- Increase SEO Traffic with WordPress (September 2024)
- AI for Agriculture, Start-up Creation, and Patent Searching/Drafting (August 2024)
- AgriTech: Emerging Technologies Spur Innovation onto the Future of our Young Farmers (June 2024)
- Design Thinking and Startup Pitching (June 2024)
- Artificial Intelligence, Blockchain, Quantum Computing, Lean Business Canvas, and Product Development (June 2024)
- Programming Seminar for Grade 11 and 12 ICT Students (2020-2021)
- SHS Learning Enrichment Program by Thames International: Graphic and Web Designing (May – June 2020)

KEY SKILLS

- **Mobile Application Development:** Experienced in developing Android and iOS applications using Kotlin, Swift, Android Studio, and Xcode.
- **Programming:** Proficient in Kotlin, Swift, Java, Python, C, C#, and C++ with strong problem-solving and software development skills.
